

Series: **SPB2**

Solar Panel Side-of-pole Mounting Bracket

FEATURES & BENEFITS

- For Panels Up to 27" Wide
- Epoxy Painted Aluminum or Stainless Steel
- Rugged Economical Construction
- Includes All Hardware For Installation

DESCRIPTION

The SPB1 series Side-of-Pole bracket is a simple and easy to install pole mounting solution for medium size solar panel (module). Its user settable angle setting supports installations in a wide range of locations. The bracket accommodates a single PV panel up to 27 inches in width and mounts to any pole from 2.0 inches to 4.5-inches in diameter.
