

Series: **SPB1**

Solar Panel Side-of-pole Mounting Bracket

FEATURES & BENEFITS

- Rugged, Heavy Duty Construction
- Includes Everything Needed For Installation
- Aluminum Frame/Stainless Steel Hardware
- Designed For Side-of-Pole Mounting

DESCRIPTION

The SPB1 series Side-of-Pole bracket is a simple and easy to install pole mounting solution for medium size solar panel. Its user settable angle setting supports installations in a wide range of locations. Three different models accommodate a single PV panel up to 5.5 square feet and mounts to any size pole from 2.0 inches to 4.5-inches in diameter.
